

Misty Rainforest

Sydney Eckstein: Artist / Audio & UI Designer

Stella Fruijtier: Lead Programmer

Richard Stoiberer: Level & Game Lead

The background is a stylized illustration of a rainforest. It features various shades of green for the foliage, including large trees in the upper corners and smaller plants and rocks at the bottom. The sky is a light, pale green. The overall style is clean and modern.

Recap

We created a 2D jump & run game about Komea, fighting through the Misty Rainforest to regain his human form.

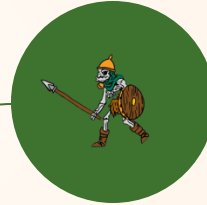

Created 3 levels, in each level you have to eliminate all Merfolk enemies to open the gate and progress to the next level.
